PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

---

PROJECT NUMBER: TRAINING      SESSION NUMBER: 2 OF 3  
DATE OF SESSION: 04 AUG 88      DATE OF REPORT: 05 AUG 88  
START: 1438      END: 1536  
METHODOLOGY: CRV      VIEWER IDENTIFICATION: 025

---

1. (S/NF/SK) MISSION: To access and describe the target object, paying close attention to proper CRV structure.
2. (S/NF/SK) VIEWER TASKING: The target site is an object at the 6-digit encrypted coordinates: 870230/629727.
3. (S/NF/SK) COMMENTS:
  - a. Inclemencies: Sick with stomach virus.
  - b. In this session, 025 was informed that part of the tasking was not inherent to the physical aspects of the site, but would also include intangibles. This may have caused some instability, for 025's perceptions, while correct, "bounced around" the site, mixing many components (for example, the drawing on page 14 appears to mix both inside and outside components of the target object into one drawing). This problem was not properly resolved within this session, due to my own feeling that I would inadvertantly "cue" information to 025, if I tried to correct the instability. The next session will attempt to deal with this problem.
  - d. The confusing nature of the problem listed above caused 025 to call several confusion breaks. 025 was previously somewhat reluctant to do this, and has learned from this site that confusion must be objectified. If nothing else is learned from this site by 025, learning this one point has made the session productive.

025

4 August 1988

#### Summary

Initially, I concentrated on the motion of the orange lights which are passing through the middle. The texture is smooth and metallic with an angle branching out near the center. Then after undergoing a movement exercise, I discovered the outside of a rounded top, off-white structure. There is a square room with corners on the inside and only one object present. This object has something to do with people. The object itself is rounded on both sides near the top (energy was detected in this area) and has complicated dimensions around the center.
